

Evan Dastin-van Rijn
dasti006@umn.edu 401-787-8534

Education

University of Minnesota-Twin Cities **Minneapolis, MN**
PhD in Biomedical Engineering, Translational Neuroengineering Lab Fall 2021-Present

Brown University **Providence, RI**
Bachelor of Science in Biomedical Engineering and Neuroscience Fall 2017-Spring 2021
Magna cum laude, Honors in Biomedical Engineering
Cumulative GPA 4.0/4.0

St. John's International School **Waterloo, Belgium**
43 points in the IB Diploma (HL: Chemistry, Math, Physics, Philosophy) Fall 2015-Spring 2017

Research Experience

PhD Student, Translational Neuroengineering Lab 09/2022-Present

- Developed computational models to better understand the effect of striatal stimulation in a behavioral task probing cognitive flexibility in rats
- Developed a streamlined software platform for integrating behavioral tasks in operant chambers, electrophysiological recordings, video, and stimulation
- Developed new hardware for communicating between operant chambers and behavioral task software according to industry standards

Research Assistant, Borton Laboratory 09/2018-08/2021

Assisted with a study working towards the development of an adaptive system to treat symptoms of OCD using deep brain stimulation (DBS)

- Developed Period-based Artifact Reconstruction and Removal Method (PARRM), a novel method for neurostimulation artifact removal showing improved performance over existing, state-of-the-art methods
- Developed Period Estimation of Lost Packets (PELP), a solution to temporal alignment of packet losses occurring during recordings with implanted bidirectional stimulators
- Analyzed and evaluated approaches to data imputation to enable interpretation of neural timeseries with missing samples
- Performed neural data analysis that was used to meet NIH milestones
- Programmed a cognitive control task using jsPsych for use in the clinic and at home settings
- Developed a neural and video data preprocessing pipeline for accurate temporal alignment of multimodal data streams
- Developed programs and workflows to aid in data validation and quality assurance

Research Assistant, Learning, Memory & Decision Lab 05/2020-08/2021

Developed a series of computational models in MATLAB to determine and analyze differences in latent structure learning measured using a computer-based behavioral task

Research Assistant, Salomon Laboratory 05/2018-08/2018

Using Java, FileMaker, and R, incorporated the industry standard software package Maxquant into the laboratory's software pipeline.

Student, Phage Hunters

08/2017-05/2018

Designed an algorithm to generate PCR primers particular to specific bacteriophage clusters to aid in identification prior to sequencing. Primers successfully clustered more than 1500 different bacteriophage both theoretically and in practice.

Skills and Training

Programming: MATLAB, JavaScript, Java, Android, Python, HTML/CSS, Git

Software: Adobe Suite, Solidworks, Simulink, Microsoft Office

Lab: Electroencephalography, electrocardiography, circuit design, rat handling, task shaping

Conferences and Poster Presentations

- Society for Neuroscience Annual Meeting 2022** November 2022
 “Identification of candidate neural biomarkers of obsessive-compulsive symptom intensity and response to deep brain stimulation” (Co-author)
- Society for Neuroscience Annual Meeting 2022** November 2022
 “Early experiences with Percept: LFP changes in two patients receiving VC/VS DBS for OCD” (Co-author)
- Society for Neuroscience Annual Meeting 2022** November 2022
 “Neurophysiology of the prefrontal-striatal circuitry during extradimensional Set-shifting in rats” (Co-author)
- Society for Neuroscience Annual Meeting 2022** November 2022
 “Effects of Striatal DBS on the Trial-Irrelevant Activity in the Extradimensional Set Shifting Task” (Co-author)
- Society for Neuroscience Annual Meeting 2022** November 2022
 “DBS disrupts reinforcement-based decision making in rats” (Co-author)
- Society for Neuroscience Annual Meeting 2022** November 2022
 “Rodents Solve an Extradimensional Set-Shifting Task by Forgetful Adaptive Reinforcement Learning” (Presenter)
- 8th Annual BRAIN Initiative Investigators Meeting** June 2022
 “Rodents Solve an Extradimensional Set-Shifting Task by Forgetful Adaptive Reinforcement Learning” (Presenter)
- Society of Biological Psychiatry Annual Meeting 2022** April 2022
 “Characterizing Effects of Ventral Striatum Deep Brain Stimulation in Obsessive-Compulsive Disorder with Resting Magnetoencephalography” (Co-author)
- Society of Biological Psychiatry Annual Meeting 2022** April 2022
 “Unilateral electrical stimulation is sufficient to improve behavioral flexibility in rodents” (Co-author)
- Society of Biological Psychiatry Annual Meeting 2022** April 2022
 “Rodents Solve an Extradimensional Set-Shifting Task by Forgetful Adaptive Reinforcement Learning” (Presenter)
- Minnesota Neuromodulation Symposium 2022** April 2022
 “Rodents Solve an Extradimensional Set-Shifting Task by Forgetful Adaptive Reinforcement Learning” (Presenter)
- Minnesota Neuromodulation Symposium 2022** April 2022
 “Deep Brain Stimulation of the Mid-Striatum Impairs Probabilistic Reinforcement Learning in Rodents” (Co-author)
- Minnesota Neuromodulation Symposium 2022** April 2022
 “Effects of deep brain stimulation in the mid-striatum on compulsive behavior in an extradimensional set-shifting task” (Co-author)
- Minnesota Neuromodulation Symposium 2022** April 2022
 “Unilateral electrical stimulation is sufficient to improve behavioral flexibility in rodents” (Co-author)
- Society for Neuroscience Annual Meeting 2021** November 2021
 “Effects of deep brain stimulation treatment for refractory obsessive-compulsive disorder on ventral striatal field potentials” (Co-author)
- 43rd Annual EMBC** October 2021
 “How do packet losses affect measures of averaged neural signals?” (Presenter)

7th Annual BRAIN Initiative Investigators Meeting	June 2021
“Long-term ecological assessment of intracranial electrophysiology synchronized to behavioral markers in Obsessive-Compulsive Disorder” (Co-author)	
2021 Northeast Bioengineering Conference	March 2021
“An adhesive sensor for measuring maternal sleeping position” (Presenter)	
18th Society for Neuroeconomics Annual Meeting	October 2020
“Investigating individual differences in latent structure learning in a changing environment” (Presenter)	
6th Annual BRAIN Initiative Investigators Meeting	June 2020
“A novel method for DBS artifact removal: Period-based Artifact Reconstruction and Removal Method for DBS” (Presenter)	
6th Annual BRAIN Initiative Investigators Meeting	June 2020
“Chronic VC/VS DBS for OCD modulates VC/VS spectral power during rest” (Co-author)	
2019 UTRA Summer Research Symposium	August 2019
“Artifact removal from Local Field Potential recordings during Deep Brain Stimulation” (Presenter)	
5th Annual BRAIN Initiative Investigators Meeting	June 2019
“Preliminary experience with developing adaptive Deep Brain Stimulation for Obsessive Compulsive Disorder” (Co-author)	

Teaching Experience

Head Teaching Assistant, Brown University	05/2021-07/2021
Was responsible for managing problem sets, design projects, exam questions, office hours, review sessions, and guiding other TAs for Dynamics and Vibrations	
Teaching Assistant, Brown University	11/2020-04/2021
Was responsible for designing problem set style homework assignments, guiding student progress, and assisting with extended, open-ended final projects for Neural Computation in Learning and Decision Making	
Teaching Assistant, Brown University	11/2020-04/2021
Was responsible for managing homework, lab assignments, exams, office hours, and review sessions for Transport and Biotransport Processes	
Teaching Assistant, Brown University	01/2020-05/2020
Instructed students in three, week-long, MATLAB-based, design projects for Dynamics and Vibrations and held office hours to assist in debugging project code and writing reports	
Meiklejohn Peer Advisor, Brown University	08/2019-05/2020
Advised a cohort of nine first-year, engineering students on adjusting to classes and lifestyle in a university setting	
Classroom Assistant, STEMS	08/2018-05/2019
Assisted teachers with lessons in the classroom for high-school students in Algebra I, Geometry, and Algebra II at Hope High School in Providence	
Mentor, PAL	08/2018-05/2019
Mentored two adults with learning disabilities (Stephie and Anthony) on topics of their choosing ranging from Jewish culture to driver's education	

Awards

Trainee Professional Development Award (SFN)	September 2022
Cirtec Medical Poster Award Minnesota Neuromodulation Symposium (\$300)	April 2022
Outstanding Biomedical Engineering Senior Award	April 2021
NSF Graduate Research Fellowship	March 2021
Biomedical Engineering Graduate Merit Award	March 2021
Sigma Xi Honor Society	March 2021
Tau Beta Pi Honor Society	November 2019

12/1/2022

Undergraduate Teaching and Research Award
American Foreign Service Association Academic Merit Award

May 2018
August 2017
