## Evan Dastin-van Rijn

dasti006@umn.edu 401-787-8534

#### **Education**

#### **University of Minnesota-Twin Cities**

PhD in Biomedical Engineering, Translational Neuroengineering Lab

Minneapolis, MN

Fall 2021-Present

**Brown University** 

Providence, RI

Bachelor of Science in Biomedical Engineering and Neuroscience Magna cum laude, Honors in Biomedical Engineering

Fall 2017-Spring 2021

Cumulative GPA 4.0/4.0

St. John's International School

Waterloo, Belgium

43 points in the IB Diploma (HL: Chemistry, Math, Physics, Philosophy)

Fall 2015-Spring 2017

#### **Research Experience**

#### PhD Student, Translational Neuroengineering Lab

09/2022-Present

- Developed a black-box optimization platform to determine ideal stimulation parameters for enhancing cognitive variables
- Developed and assessed new methods for optimizing highly noisy, multidimensional problems using Bayesian Optimization
- Developed computational models to better understand the effect of striatal stimulation in a behavioral task probing cognitive flexibility in rats
- Developed a streamlined software platform for integrating behavioral tasks in operant chambers, electrophysiological recordings, video, and stimulation
- Developed new hardware for communicating between operant chambers and behavioral task software according to industry standards

#### Research Assistant, Borton Laboratory

09/2018-08/2021

Assisted with a study working towards the development of an adaptive system to treat symptoms of OCD using deep brain stimulation (DBS)

- Developed Period-based Artifact Reconstruction and Removal Method (PARRM), a novel method for neurostimulation artifact removal showing improved performance over existing, state-of-theart methods
- Developed Period Estimation of Lost Packets (PELP), a solution to temporal alignment of packet losses occurring during recordings with implanted bidirectional stimulators
- Analyzed and evaluated approaches to data imputation to enable interpretation of neural timeseries with missing samples
- Performed neural data analysis that was used to meet NIH milestones
- Programmed a cognitive control task using jsPsych for use in the clinic and at home settings
- Developed a neural and video data preprocessing pipeline for accurate temporal alignment of multimodal data streams
- Developed programs and workflows to aid in data validation and quality assurance

#### Research Assistant, Learning, Memory & Decision Lab

05/2020-08/2021

Developed a series of computational models in MATLAB to determine and analyze differences in latent structure learning measured using a computer-based behavioral task

#### Research Assistant, Salomon Laboratory

05/2018-08/2018

Using Java, FileMaker, and R, incorporated the industry standard software package Maxquant into the laboratory's software pipeline.

#### **Student, Phage Hunters**

08/2017-05/2018

Designed an algorithm to generate PCR primers particular to specific bacteriophage clusters to aid in identification prior to sequencing. Primers successfully clustered more than 1500 different bacteriophage both theoretically and in practice.

#### **Skills and Training**

Programming: MATLAB, JavaScript, Java, Android, Python, HTML/CSS, Git Software: Adobe Suite, Solidworks, Simulink, Microsoft Office, Inkscape Lab: Electroencephalography, electrocardiography, circuit/PCB design, rat handling, rat surgery, task shaping, evoked response potentials

#### **Publications**

#### **Conferences and Poster Presentations**

#### **Computational Psychiatry Conference 2024**

July 2024

"Sex differences in mouse cognitive flexibility and decision making" (Co-author)

#### 2024 American Society for Stereotactic and Functional Neurosurgery

June 2024

"The effect of adaptive deep brain stimulation for obsessive-compulsive disorder in cognitive self-control under uncertainty" (Co-author)

#### **Minnesota Neuromodulation Symposium 2024**

April 2024

"Deep brain stimulation and inter-trial behaviors in a rodent 5-choice serial reaction time task (Coauthor)

#### Minnesota Neuromodulation Symposium 2024

April 2024

"Dual-site neurostimulation in cortico-striatal circuitry in treatment-resistant obsessive compulsive disorder" (Co-author)

#### Minnesota Neuromodulation Symposium 2024

April 2024

"Optogenetic deep brain stimulation of mPFC projections in mid-striatum improves cognitive flexibility" (Co-author)

#### Minnesota Neuromodulation Symposium 2024

April 2024

"Sex differences and similarities in mouse cognitive flexibility" (Co-author)

#### Minnesota Neuromodulation Symposium 2024

April 2024

"Effect of Mid-Striatal Stimulation and Number of Trials Since Change in Stimulation on the Reaction Times of Rats Performing Set-Shifting Task" (Co-author)

#### Minnesota Neuromodulation Symposium 2024

April 2024

"Method for Synthetic Generation of LFP Data for Testing of Feature Extraction Algorithms" (Coauthor)

#### Minnesota Neuromodulation Symposium 2024

April 2024

"Optimizing cognitive control with electrical stimulation" (Presenter)

#### **Society for Neuroscience Annual Meeting 2023**

November 2023

"Unilateral mid-striatal deep brain stimulation improves cognitive flexibility in rats" (Co-author)

#### **Society for Neuroscience Annual Meeting 2023**

November 2023

"Unraveling the mechanistic link between repetitive mild traumatic brain injuries and maladaptive avoidance: Insights from neural synchrony" (Co-author)

#### Society for Neuroscience Annual Meeting 2023

November 2023

"Deep brain stimulation does not affect impulsivity but increases inter-trial behaviors in a rodent 5-choice serial reaction time task" (Co-author)

#### **Society for Neuroscience Annual Meeting 2023**

November 2023

"Low-frequency power in ventral capsule/ventral striatum and orbitofrontal cortex: a neural biomarker of obsessive-compulsive symptom severity" (Co-author)

#### **Society for Neuroscience Annual Meeting 2023**

November 2023

"Black-box optimization of cognitive control with electrical stimulation" (Presenter)

#### 9th Annual BRAIN Initiative Investigators Meeting

June 2023

"Electrical stimulation of mid striatum enhances cognitive control" (Presenter)

### 9th Annual BRAIN Initiative Investigators Meeting

June 2023

"An Optogenetic Model of Mid-Striatal Electrical Deep Brain Stimulation to Improve Cognitive Flexibility" (Co-author)

### 9th Annual BRAIN Initiative Investigators Meeting

June 2023

"Low-frequency power in the ventral capsule/ventral striatum and orbitofrontal cortex: a neural biomarker of obsessive-compulsive symptom provocation" (Co-author)

#### Society of Biological Psychiatry Annual Meeting 2023

April 2023

"Deep Brain Stimulation in Rats Performing a Multi-Armed Bandit" (Co-author)

#### Society of Biological Psychiatry Annual Meeting 2023

April 2023

"Deep Brain Stimulation Does Not Affect Impulsivity in a Rodent 5-Choice Serial Reaction Time Task" (Co-author)

#### Society of Biological Psychiatry Annual Meeting 2023

April 2023

"Optogenetic Deep Brain Stimulation of mPFC Axons in Mid-Striatum Improves Cognitive Flexibility" (Co-author)

#### Society of Biological Psychiatry Annual Meeting 2023

April 2023

"Deep Brain Stimulation Improves Reaction Times in an Assay of Cognitive Flexibility Through a Confluence of Features" (Presenter)

#### Society of Biological Psychiatry Annual Meeting 2023

April 2023

"Chronic Ecological Assessment of Intracranial Neural Activity Synchronized to Disease-Relevant Behaviors in Obsessive-Compulsive Disorder" (Co-author)

#### Society of Biological Psychiatry Annual Meeting 2023

April 2023

"Identification of candidate neural biomarkers of obsessive-compulsive symptom intensity and response to deep brain stimulation" (Co-author)

#### **Minnesota Neuromodulation Symposium 2023**

April 2023

"An optogenetic model of mid-striatal electrical deep brain stimulation to improve cognitive flexibility" (Co-author)

#### Minnesota Neuromodulation Symposium 2023

April 2023

"Prefrontal Cortex and Amygdala Interactions during Platform Mediated Avoidance: Insights from Neural Synchrony" (Co-author)

#### Minnesota Neuromodulation Symposium 2023

April 2023

"Investigating Effects of Repetitive Mild Traumatic Brain Injury (rmTBI) on Maladaptive Avoidance Behavior" (Co-author)

#### **Minnesota Neuromodulation Symposium 2023**

April 2023

"Deep brain stimulation does not affect impulsivity in a rodent 5-choice serial reaction time task" (Coauthor)

October 2020

"Investigating individual differences in latent structure learning in a changing environment" (Presenter) 6<sup>th</sup> Annual BRAIN Initiative Investigators Meeting June 2020

"A novel method for DBS artifact removal: Period-based Artifact Reconstruction and Removal Method for DBS" (Presenter)

#### 6<sup>th</sup> Annual BRAIN Initiative Investigators Meeting

June 2020

"Chronic VC/VS DBS for OCD modulates VC/VS spectral power during rest" (Co-author)

#### 2019 UTRA Summer Research Symposium

August 2019

"Artifact removal from Local Field Potential recordings during Deep Brain Stimulation" (Presenter)

#### 5<sup>th</sup> Annual BRAIN Initiative Investigators Meeting

June 2019

"Preliminary experience with developing adaptive Deep Brain Stimulation for Obsessive Compulsive Disorder" (Co-author)

#### **Teaching Experience**

#### Head Teaching Assistant, Brown University

05/2021-07/2021

Was responsible for managing problem sets, design projects, exam questions, office hours, review sessions, and guiding other TAs for Dynamics and Vibrations

#### **Teaching Assistant, Brown University**

11/2020-04/2021

Was responsible for designing problem set style homework assignments, guiding student progress, and assisting with extended, open-ended final projects for Neural Computation in Learning and Decision Making

#### **Teaching Assistant, Brown University**

11/2020-04/2021

Was responsible for managing homework, lab assignments, exams, office hours, and review sessions for Transport and Biotransport Processes

#### **Teaching Assistant, Brown University**

01/2020-05/2020

Instructed students in three, week-long, MATLAB-based, design projects for Dynamics and Vibrations and held office hours to assist in debugging project code and writing reports

#### Meiklejohn Peer Advisor, Brown University

08/2019-05/2020

Advised a cohort of nine first-year, engineering students on adjusting to classes and lifestyle in a university setting

#### **Classroom Assistant, STEMS**

08/2018-05/2019

Assisted teachers with lessons in the classroom for high-school students in Algebra I, Geometry, and Algebra II at Hope High School in Providence

Mentor, PAL 08/2018-05/2019

Mentored two adults with learning disabilities (Stephie and Anthony) on topics of their choosing ranging from Jewish culture to driver's education

#### **Awards**

**GWBME Service Award** March 2024 MnDRIVE Data Science Initiative Fellowship December 2023 Trainee Highlight Award Honorable Mention (BRAIN) June 2023 Trainee Professional Development Award (SFN) September 2022 Cirtec Medical Poster Award Minnesota Neuromodulation Symposium (\$300) April 2022

Outstanding Biomedical Engineering Senior Award	April 2021
NSF Graduate Research Fellowship	March 2021
Biomedical Engineering Graduate Merit Award	March 2021
Sigma Xi Honor Society	March 2021
Tau Beta Pi Honor Society	November 2019
Undergraduate Teaching and Research Award	May 2018
American Foreign Service Association Academic Merit Award	August 2017
